JACKSONVILLE, ILLINOIS, WEDNESDAY MORNING, JUNE 15, 1904.

## NAME THEIR CANDIDATES

### LEADERS OF THE DEMOCRACY OF ILLINOIS.

#### The State Convention at Springfield Performs Its Functions—The Nominees—What the Platform Voices.

Governor—Lawrence B. Stringer, Lincoln.  
Lieutenant Governor—Thomas J. Ferns, Jerseyville.  
Secretary of State—Frank E. Dooling, Sangamon county.  
Treasurer—Charles B. Thomas, MacLeanboro.  
Attorney General—Albert Watson, Jefferson county.  
State Auditor—R. E. Spangler, Chicago University Trusts—Mrs. Anna G. Solomon, Chicago; Theodore C. Leahr, Carlinville; F. B. Merrill, St. Clair county.  
Delegates-at-Large to the St. Louis convention—John P. Hopkins, A. M. Lawrence, Ben T. Cable, Samuel Alschuler.

Springfield, June 14.—The above nominations were made at the Democratic convention to day. John P. Hopkins, of Chicago, will succeed himself as chairman of the state central committee.

William R. Hearst received from the Democratic state convention what the Hopkins faction, which completely dominated the proceedings, knew he wanted, and Hearst's campaign managers, who aspired to control the Democratic party in this state, received what John P. Hopkins thought was coming to them.

The Illinois delegation was instructed to vote for Hearst at St. Louis as long as his name remained before the convention. Hearst's campaign managers received absolutely no consideration whatever from the convention. The Harrison party, which came solely from Chicago, and was pledged to support Congressman Williams, was routed completely. Carter H. Harrison was unseated as a delegate and took a train for home without going near the convention. Both his faction and the Hearst people were as nothing compared to the strength and skillful management of the convention exhibited by Hopkins.

At the same time it must be said that never before in Illinois has there been a bolder display of ruthless gavel rule than that exhibited by Frank J. Quinn, of Peoria, who presided over the convention both as temporary and permanent chairman. He paid absolutely no attention to men or motions when it did not fit with the interests of Hopkins' plans for him to do so, and in one instance, at least, he declared a motion carried before the Hearst and Harrison people had voted upon it.

The committee on resolutions finished its work early, but it was decided by the chairman to withhold it until he knew what action the Hearst people would take on the report of the committee on credentials. There was a wait of two hours before this body was prepared to report, and as J. J. Kane, of East St. Louis, who was to read the report, came upon the rostrum, a line of police officers marched in and suggestively formed in front of the speaker.

The report of the committee on credentials was brief and pithy. It simply said: "We believe everything done by the state central committee in seating and unseating delegates was just and proper, and we recommend that its work be endorsed."

Then came bedlam. The Harrison and Hearst people shrieked "Roll call," yelled "Robbers," "Thieves," and a few other things less polite. They were so wrathful that they could not wait to listen to the reading of a minority report which recommended action opposite to the report first read. When quiet was finally restored and eyes and noses on substitution of the minority report was called for and it was lost.

Adoption of the report was moved, the yeas were called for and before the opposition could vote the report was declared adopted.

There were more frantic shrieks of "Roll call," and the chairman said: "You can have a roll call on the report of the resolutions committee. We will give you anything you want—after a while."

That was all the comfort the Hearst people obtained until they were given a chance to vote on the question of endorsing their candidate in St. Louis.

When the motion to proceed with the nomination of candidates was carried William Prentiss, of Chicago, who was a candidate for governor, his face white with wrath, mounted the platform, and, after declaring passionately that the convention did not represent the Democracy of Illinois, withdrew his name. He was cheered by the Hearst delegates.

William C. Crolius, of Joliet, endorsed the stand taken by Prentiss and also withdrew his name.

While waiting for the resolutions committee to report the wildest confusion prevailed and several fist fights took place. When the committee finally presented its report its reading had to be suspended for a time because of the howls and jeers that greeted it.

The resolution providing for the endorsement of Hearst was not made part of the report of the committee on resolutions, but was submitted as a separate matter. The original resolution provided practically that the Illinois delegation should vote for Hearst until it was convenient to vote for somebody else. The substitute pledging the delegates to Hearst as long as his name is before the convention was adopted by a vote of 136 to 35.

The ticket was then nominated and the convention adjourned.

THE PLATFORM.  
The platform pledges the co-operation of the Democrats of Illinois with the Democratic party of the United States, "in its efforts to restore the national government to the American people, freed from the spirit of greed with which it has been deluged during the last eight years of Republican riot of corruption, extravagance, favoritism and misrule."

It points to the recent revelations of corruption in the postoffice department; the depleted treasury; the failure of the attorney general to prosecute the trusts; the refusal of congress to reduce the tariff on trust made articles.

The platform says the rights secured by the constitution are absolute acquiescence in the will of the majority; the supremacy of civil over military authorities; total separation of church and state; equality of all citizens before just laws of their own enactment; liberty of individual conduct, untrammelled by sumptuary laws. It declares that "with the increase of wealth and population, these precious rights can only be preserved to a free people by their practicing that eternal vigilance which is the price of liberty."

On state affairs the party is pledged to enact a primary election law by which candidates for office and political committees of all parties shall be nominated on and selected on the same day, a law for auditing public accounts by all collectors and custodians of public moneys; against maintaining public offices of profit and that useless offices shall be abolished and fees and salaries reduced; revision of corporation laws so as to prevent overcapitalization and watering of stock; a law regulating service and charge of public utilities; an effective civil service law applicable to all appointed state officers or employees; favor extending to women further suffrage rights; for the passage of a law to correct alleged unfair methods in the inspection of grain; urge people to vote for a constitutional amendment enabling the legislature to grant a new charter to Chicago; favor a law that will prevent possible interference with the rights of labor.

The platform demands recognition of the doctrine that the constitution follows the flag in Port Rico and the Philippines, or that they are free and independent; favors the election of senators by direct vote; declares the growth of trusts and monopolies one of the evil results of ascendancy of the Republican party at Washington and that the present tariff has strengthened old trusts and created new ones.

Delegates to the national convention are instructed to vote as a unit.

## A GENERAL ENGAGEMENT

### REPORTED BETWEEN RUSSIANS AND JAPANESE

#### The Entire Front of Both Armies Said to Be in Contact—No Details—Accident to a Japanese Torpedo Boat.

London, June 14.—The Central News has received a dispatch from its Liao Yang correspondent under to day's date saying heavy fighting between Russian and Japanese vanguards commenced at 1.30 this afternoon. Fighting extended along the entire front, assuming the dimensions of a general engagement. The correspondent says no details are available.

Chicago, June 14.—A special to the News from Tokyo says:

"The officer killed in the accident to the torpedo ship Tachoku was Lieutenant Commander Oda. He was the inventor of the Japanese mine and by his great activity and skill throughout the operations before Port Arthur had added largely to his reputation. The Tachoku at the time of the accident was under a heavy fire from Russian torpedoes and torpedo boats."

WAR REPORTS.  
Tokyo, June 14.—While the naval transport Tachoku was engaged in laying mines at the entrance of Port Arthur last night a mine exploded, killing one officer and eighteen men and wounding two officers and seven men. The vessel was not seriously damaged.

St. Petersburg, June 14.—The calling out of the army reserves in Kasan, Koenig and Moscow military districts was announced to day. This step is for the purpose of filling up skeleton reserve corps and to replace regular troops already gone to the front. It also forebodes dispatch of four Volga corps, which would give Kurapatkin 200,000 more men.

The Japanese are displaying activity at all their advance lines. Two divisions of the enemy are now marching north along the railway toward Vafangow. They are having constant skirmishes with Russians, but the advance is not being seriously contested. Although it is too early to determine the exact purpose of the advance, the presumption of the general staff is that the northward movement is intended to effect a juncture.

The juncture at Kailou with the column from Su Yen, which is still moving forward, the bombardment of the coast near Kailou and the blockade of New Chwang might indicate the ultimate object of the combined movements is to clear Liao Tung peninsula of Russians and occupy New Chwang as a new base. North of Feng Wang Ching Japanese are also moving. Japanese are strongly fortifying Feng Wang Ching as a precaution against possible disaster.

Liao Yang, June 14.—Japanese artillery to day opened upon Vafangow station on the railway twenty-five miles above Kien Chiau. Details are awaited.

St. Petersburg, June 14.—The emperor's advances from Kurapatkin, under date of June 13, are that the Japanese were discovered northward from Pukandien, extending from Vafangow along the valley of Tassia. At 4.30 p. m. the Japanese occupied several villages and the heights southward of Vafangow. Lieutenant Teherapakhin and several soldiers were wounded.

A dispatch to the general staff from Major General Karkovitch says that during the night of June 11-12 the Japanese attacked the advance posts near Utsatien, but were repulsed. The same night after an all-night fight the Russians took possession of the pass and heights near Utsatien. The Russian losses were four killed and eighteen wounded.

The emperor has received the following from Lieutenant General Baron Stakelberg, bearing to day's date:

"A battle began at noon around the Russian position four and a half miles south of Vafangow (Vafangow?), the enemy making repeated attempts to dislodge our left flank. The attack was repulsed and we retained our position."

"The first regiment occupying the left flank of our position sustained severe losses. Its commander, Colonel Khavintzoff and Adjutant Sub-Lieutenant Dragoslav Nodolinsky were killed. General Gerngross was wounded, a shrapnel bullet shattering the right side of his lower jaw, but he remained in the field."

London, June 15.—The Chefoo correspondent of the Times says the Russian troops at Port Arthur are on two-thirds straits. He says there has been a considerable number of desertions among the Siberian troops, who get away disguised as Chinamen.

Tokyo, June 15, 10.30 a. m.—The Vladivostok squadron is reported in the Korean straits. Firing has been heard on Tsuno Shima, the island off the southwest of Honshu Island. It is possible an engagement is progressing.

The employers have imported waiters from neighboring towns to supply the deficiency and the restaurants are all open.

## RETRIEVED.

Trenton, N. J., June 14.—Aeting Governor Wakelee to day signed a reprieve, which for twenty-one days at least will save Mrs. Anna Valentine, of Leola, from the gallows. Granting of the reprieve followed an appeal for the condemned woman on the part of a delegation of her countrymen and others.

Jefferson City, Mo., June 14.—The supreme court to day formally sentenced former Congressman Emil Hartman and Julius Lehman, of St. Louis, to serve six and seven years respectively in the penitentiary for bribery in St. Louis. The bearers included Chief Justice Fuller, Secretary Hay, Representative R. R. Hill, Robert T. Lincoln, Secretary Hitchcock, Secretary S. P. Langley of the Smithsonian Institution, John D. Smith of New York and John J. Mitchell of the Illinois Trust company.

## THE DRUGGISTS.

Rockford, June 14.—President Thomas Knoebel in his address to the Illinois Pharmaceutical association to day called attention to the patent medicine evil and blamed druggists for the increasing consumption of patent nostrums. Reports from various officers indicated a growth in membership and increasing interest in the association.

## DEMAND INVESTIGATION.

New Urm, Minn., June 14.—The State Federation of Labor to day adopted a sweeping resolution in condemnation of the action of the governor of Colorado in the Cripple Creek strike and appealing to the president of the United States as commander-in-chief of the military forces to compel investigation of General Ball and of Governor Elbert.

## VANGUARD ARRIVING

### FOR THE NATIONAL CONVENTION AT CHICAGO

#### Incoming Trains Bring Delegates to the Great Republican Assembly—Seating of Northern Delegates at Large Serious

Chicago, June 14.—Incoming trains brought large numbers of Republican national advance guard to Chicago to day. Leaders have settled down to a belief the disputed topics which will occupy the convention and national committee will be the vice presidency and contests.

With the arrival of Senators Spooner and Quarles of Wisconsin interest began to grow in the matter of seating delegates at-large from the northern state in the convention. The national committee at its meeting, which will begin to morrow, will have no more difficult problem to solve than that presented by the Wisconsin situation. Contests for seats in the convention do not involve district delegates to any considerable extent, but there are two sets of delegates-at-large, one headed by Senator Spooner and the other by Governor La Follette. It is not probable that the Wisconsin contest until Friday. The members will first arrange contests easier of adjustment.

Chairman Babcock of the Republican congressional committee came to Chicago to day from Wisconsin. He was dumb on the contest matter.

Charles W. Johnson, of Minneapolis, secretary of the convention, and his assistant, John R. Malloy, of Columbus, Ohio, are here and busy with preparations for the convention.

Committee J. M. Green of South Dakota arrived to day. There are at present only twelve committee-men here, but the main body is expected to arrive to night or early to morrow.

Postmaster General Payne received many political friends, among whom was Gen. E. D. Grant, Senator Cullom and several members of the subcommittee.

## ATTACKED BY A MAD COW.

Pontiac, June 14.—Mrs. Fisher, living at the extreme north end of North Mill street, was knocked down by an infuriated cow this morning and for a time it was feared that she was seriously injured, being unconscious for some time.

Mrs. Fisher had the cow tied to a fence post along the road, where it was allowed to eat grass. She had just moved the cow from one post to another and had turned to go away when the cow suddenly lunged toward her. She did not see the cow or hear it coming until it was upon her and too late for her to get out of the way.

The latest, which had apparently gone mad for the time being, struck her on the back with its front feet, knocking her to the ground and then trampling upon her.

## GERMAN-AUSTRIAN AGREEMENT.

Birmingham, Eng., June 14.—The Post to day mentions a rumor which has been put in circulation in diplomatic quarters in connection with the trip of King Edward to Kiel. The king, according to the rumor, lately learned that a most important agreement had been entered into between Germany and Austria in anticipation of the events likely to arise in the war between Japan and Russia. It is believed that the agreement was dictated entirely by German official sympathy for Russia.

## SUSPECT CHINESE KITES.

St. Petersburg, June 14.—The press of Vladivostok, says the Novoye Vremya, has become suspicious of the Chinese amusement of kite flying. These kites, the newspapers aver, are used along the coast as signals for the Japanese torpedo boats, which can thus obtain what information they desire without coming into close proximity to the Vladivostok squadron or the shore batteries.

## STRIKE ENDED.

Cleveland, Ohio, June 14.—After six weeks of a tie-up on the great lakes that has directly involved only a couple of thousand men, but indirectly more than a hundred thousand, who have been idle because of its existence, the strike was ended to night by the surrender of the masters, who, with pilots, have been holding out for a more uniform scale of wages. This reason was not offered by the lake carriers' association.

The order declaring the strike off says: "The masters' and pilots' association have concluded that it will be a good policy at this stage of the game, owing to existing conditions over which we have no control, to advise our captains to go to work and make the most of a bad situation." The strike has been one of the most costly in wages and time lost and stagnation to business in recent years.

## BRYAN APPROVES.

Of the Anti-Parker Meeting in New York—Objects to a Silent Candidate.

New York, June 14.—William J. Bryan has written a letter to M. G. Pulliser, who has called an anti-Parker meeting, in which he approves of the meeting and assumes that its object is not to send a centesimal delegation to St. Louis, or to question the regularity of the Albany convention, "but merely to enter a protest on behalf of a large number of New York voters who believe in honesty in politics and are opposed to the burglars' methods which are now being employed to foist upon the party a speechless candidate and a meaningless platform."

Bryan also says: "It is the first time in recent years at least, that a man has been urged for so high a position on the grounds that his opinions are unknown. Surely the Democratic party is in desperate straits if among all its members it cannot find a trustworthy man who has ever been interested enough in public questions to give expression to his opinion. In the great contest between democracy and plutocracy our party should take a positive and aggressive stand and it should present a standard bearer who will infuse courage and enthusiasm among the masses."

## NEW RAILROADS IN MEXICO.

Mexico City, June 14.—More than 1,500 miles of railroad, it is said, are to be built in Mexico under the direct auspices of the Mexican church. The Mexican government has given the Mexican church another grant of land, some 100,000 acres, to build a new line of railroad.

## WARRANTS FOR MINERS

### GUILTY OF THE INDEPENDENCE EXPLOSION

#### Colorado Officers Will Try to Arrest Them—Cripple Creek Prisoners Deported to Old Mexico.

Denver, June 14.—Eighty-seven warrants are out for miners who are accused of complicity in the explosion at Independence and rioting at Victor. Those warrants have been placed in the hands of Under Sheriff Felix O'Neil here and will be given to him to serve. Vice President J. C. Williams and Secretary W. D. Haywood of the Western Federation of Miners, said to day that many of the accused men were delegates to the federation's convention and were in Denver at the time of the explosion.

Former Governor Thomas, counsel for the Portland mine, said to day he had nothing further to say about plans for reopening the Portland mine. "Perhaps," he said, "if I should talk extensively in reference to my client, the Portland, I might be burned at the stake."

The executive committee of the Western Federation of Miners issued a statement to night in which they declare the union committee had a conference with the mine owners, which resulted in the latter agreeing to consider terms of settlement, but that the citizens' alliance interfered to such an extent as to prevent settlement and bring about present conditions. The statement reiterates the declaration of the innocence of the union men in causing the explosion at Independence and severely criticizes the course of the state authorities, the military and present officials of the district. "The statement appeals for funds for the families of the deported miners."

Cripple Creek, Colo., June 14.—Thirty-two of the prisoners confined in the bull pen were deported to day. It is reported the destination of the men is old Mexico. The military authorities have issued orders forbidding organizations to furnish aid in any form to the members of any organization or their families in this country unless the same is done through military channels.

### THE FISHING SEASON

Rules Established for Governing Nichols Park—Season Will Open June 18.

In accordance with the rules mentioned some time since fishing will be permitted in Morgan lake within the limits of Nichols park June 18. The following will be the rules for this and other sports:

No shooting of any kind will be permitted within the limits of the park inclosure.

Fishing strictly restricted to one line and one hook to each person except in the case of fly fishing; otherwise no more than one hook to a line will be permitted.

No trotlines permitted. No seining at any time. No throw lines with more than one hook attached.

No bottle or block fishing allowed. That is, no person will be permitted to use more than one line under any condition; no person can fish with several lines attached to blocks, bottles or any kind of a contrivance enabling a person to use more than one hook at a time.

The park commissioners especially desire it to be distinctly understood that they are striving to prepare and maintain a place free to all. Rich people can go where they please for their recreation, but there are many who cannot get away from the city and it is especially with this class in mind that the effort is being made to prepare a place with all the conveniences that can be afforded where people may go for a pleasant time—other families, small parties, Sunday schools, large parties, excursions or any sort of a gathering of people desiring a good time and pleasant outing.

Under the reasonable regulations mentioned there will be good fishing for a great many people and the only persons barred are those unwilling to behave themselves in a proper manner. The custodian of the park and the worthy superintendent, Frank Kitchner, have both been commissioned special policemen, and it is the intention to see that good order is maintained there. All citizens are urged to join with the park commission in creating a sentiment in favor of the park, using it for the purpose intended, maintaining order, enforcing the regulations and making it a place for the whole people. Persons are invited to keep private boats on the lake; also as soon as the pavilion is done, which will not be long, there will be fine facilities for all kinds of social gatherings.

#### IF YOU HAVE DYSPESIA READ THIS.

The old way of taking pepsin, bismuth, etc., to cure dyspepsia is all wrong. They may be put up in tablets or in liquids, the result is just the same. The object is to create artificial digestion, but this does not make a cure. Stop taking the pepsin, etc., and have your dyspepsia or indigestion back again. People use cocaine or opium for nervous troubles and sick headache, it does not cure. Stop taking the drug and the pain and distress return. The only Common Sense Method is to drive out of the system the cause of dyspepsia and sick headache by cleaning the stomach and bowels and at the same time using a medicine that will act upon the liver. This forces through the glands of the stomach the digestive fluid that nature intended. In this way you cure dyspepsia. The medicine that cures dyspepsia by this method is called Dr. Gunn's Improved Liver Pills. Druggists sell these pills at 25c a box. It only takes one pill for a dose. For sale by Lee P. Allcott.

### REPUBLICAN CANDIDATES

Nominees With One Exception Taught School—All But Two Born in Illinois—A Bit of Their Personal History.

With one exception the candidates on the Republican state ticket began their careers as school teachers. James S. McCullough, candidate for auditor, is the exception. Only two of them are not natives of this state. Sherman comes from Ohio and McCullough from Pennsylvania. Both were young, however, when they entered Illinois and settled here. Sherman is only three years older than Deenen, the candidate just ahead of him. They have been friends of the warmest kind from an early day in their lives, and it was Deenen's wish as well as Yates' suggestion that Sherman be on the ticket.

Only one of the candidates is an old soldier. McCullough lost an arm in the civil war. He was a private in the regiment raised at Urbana by S. T. Busey, who became its colonel. Colonel Busey afterwards married Mary Bowen, and she is the woman candidate for trustee of the University of Illinois.

Mr. Deenen's occupancy of the mansion will be of the modest character. Mrs. Deenen is noted for her domestic traits. She is little given to social duties. Mr. Deenen shuns public notice and view. During the entire convention he never appeared before the delegates except as he was called out to address them on some subject. He spent the entire time the convention was in session in the rear of the room where his lieutenants and friends had access to him. His conferences were always of the most quiet character.

In direct contrast with Governor Yates' plan of campaign, Deenen made no addresses to his friends and delegates. Lowden did this once or twice and on the first occasion Lorrimer made the talk. But Deenen carried on his campaign in an original and very quiet manner.

The Journal has printed a complete sketch of Mr. Deenen's public career, but his home life was not mentioned. He is the father of four children, all in the public schools of Chicago. They are Charles, Ashley, Dorothy and Frances. Mrs. Deenen is a member of the Englishwood Woman's club, the Englewood Fortnightly club and the Woman's Athletic club. Both Mr. and Mrs. Deenen are Methodists. Mr. Deenen's mother lives with them. So that the next occupant of the mansion will bring children into it to enliven it just as the present governor did, and one of the daughters enjoys the name Dorothy, the same name of one of Governor Yates' daughters.

Lawrence Y. Sherman, the nominee for lieutenant governor, is a native of Ohio and was born in Miami county forty-five years ago. He came to Illinois when a babe, and his early life was spent on a farm in Grove township, Jasper county. He taught school there and in St. Clair county. He attended the McKendree college at Lebanon, read law and was admitted to the bar. When 23 years of age he went to Macomb, where he has since resided.

Shortly after becoming a resident of that city he was elected city attorney and held the position for one term. He was later elected county judge, and executed the duties of that office for the same period.

Shortly after becoming a resident of that city he was elected a member of the lower house of the state legislature. He began his services there eight years ago, and for one-half of that time he was speaker of the house. He announced his candidacy for governor and was the fifth man in the race on the first ballot.

In private life Mr. Sherman is the senior member of the firm of Sherman, Tunnell & Gambart, practicing attorneys at Macomb.

LES SMALL, NATIVE OF ILLINOIS. Len Small, the nominee for state treasurer, is a resident of Kankakee county, and now represents his district in the state senate. He is a native of Illinois and was born in Kankakee county on June 6, 1862. His boyhood was spent on his father's farm. After being graduated there he finished his education at the Northern Indiana Normal school and later he taught school.

Mr. Small has been prominent politically for many years. At an early age he represented his township on the county board of supervisors, was chairman of the Republican county committee, and has for the last six years represented Congressman Cannon's district on the state committee.

He has served as circuit clerk of Kankakee county, and now represents his district in the state senate. He has been chairman of the committee on banks and banking for the last two sessions. In addition to being a farmer and nurseryman, Mr. Small is a director of the First National bank and Eastern Illinois Trust and Savings bank at Kankakee.

WILLIAM H. STEAD.

William H. Stead, named as the candidate for attorney general, was born in LaSalle county in 1858, and has spent all of his life there. He spent the first sixteen years of his life on his father's farm, attending the district school in the winter. He attended the seminary at Onarga for one year, and at the age of 17 became a school teacher. He taught for several years and then entered the Normal college at LaSalle, Ill.

### DEAD MEN WARN LIVING

Hospital Reports Prove That Dyspepsia Is the Forerunner of Consumption.

Post mortem statistics of the big New York hospitals show that many cases of consumption are due to uninterrupted progress of dyspepsia. Especially is this true in cases where the victim was predisposed to tuberculosis.

Therefore the person who allows dyspeptic conditions to progress unchecked is contributing toward the development of the most fatal disease known to mankind.

Dyspepsia wears out the body and the brain—makes the victim thin, haggard and sallow. The stomach, unable to digest food, cannot supply nourishment. When other diseases come, they enter unresisted.

HAD GIVEN UP ALL HOPE. I suffered from dyspepsia and indigestion for several years and it reached such a stage that I could hold nothing on my stomach, and immediately after eating even the lightest foods would be taken with a violent fit of vomiting. I tried a great many remedies, but nothing helped me until I procured a box of Rexall Dyspepsia Tablets, when I obtained instant relief. I am now able to eat heavy foods and I gladly recommend the Rexall Tablets to anyone suffering as I did. L. P. TAYLOR, 200 Howard St., Detroit, Mich.

Don't take any chances. Cure your dyspepsia at once. Rexall Dyspepsia Tablets will do it. We know what they are and we guarantee them to restore health, strength and a good digestion. Price 25 cents. Only at our store or by mail.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicle.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicle, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicle works on an old principle and with a new discovery—destroys the cause and you remove the effect. Herpicle destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stop falling hair at once and a new growth starts. ## WEDDING ANNOUNCED

Arthur Crathorne Formerly of  
This City and Miss Charlotte  
Pegra of Madison Wisconsin  
Will Be Married June 21.

The Journal is in receipt of hand-  
some wedding cards announcing the  
wedding June 21, at Madison, Wis., of  
Arthur Crathorne and Miss Charlotte  
E. Pegra, of the same place, daugh-  
ter of Mr. and Mrs. Winfield Pegra  
and granddaughter of ex-Congress-  
man Pegra, of Wisconsin.

Mr. Crathorne will be well remem-  
bered by many in this city as an in-  
dustrious, upright young person, who  
worked his way along as best he could,  
striving hard for the mastery, which  
he has gained. He carried papers for  
the Journal for some time, clerked in  
a store and did all he could to get  
along. He graduated from the Jack-  
sonville high school in 1891 and in  
mathematics from the University of  
Illinois in 1898. He was employed as  
tutor in mathematics in the Univer-  
sity of Maine for two years and then  
went to the University of Wisconsin  
as instructor in the same branch.

The bride-to-be is a graduate of  
the University of Wisconsin, class  
of '98, and held a fellowship there  
for two years, and in 1901 was given  
the degree of doctor of philosophy in  
economics and mathematics. Since  
that time she has had charge of the  
mathematical department of the El-  
gin high school.

They expect to sail, June 28, on the  
steamship "Canda" from Montreal  
and will visit relatives of Mr. Cra-  
thorne in England for a month and  
going thence, will attend the interna-  
tional congress of mathematicians at  
Heidelberg. This meeting is held each  
four years and is composed of repre-  
sentatives from all parts of the civil-  
ized world.

After this they will settle down at  
Goettingen, Germany, for two years,  
while Mr. Crathorne takes advanced  
work at the great university there.  
He will also spend a great deal of  
time visiting German technical  
schools and studying their methods of  
teaching mathematics.

The Journal tenders sincere con-  
gratulations.

Great sacrifice in trimmed hats  
at Herman's.

## FLAG DAY.

While Flag day was not generally  
observed, yet a large number of citi-  
zens displayed the national emblem  
conspicuously. The observance of  
the day is growing, but, like all other  
movements, it takes time to bring  
them into general recognition. The  
idea of Flag day has been the out-  
growth of one of the natural con-  
sequences of the formation of patri-  
otic organizations all over the coun-  
try whose primal purpose is to teach  
the rising generation the deep sig-  
nificance and meaning of the stars  
and stripes. As a national emblem  
the American flag stands second to  
none, and since the Spanish-Ameri-  
can war it has shared the homage  
that heretofore has only been en-  
joyed by the union jack of England.  
The more reverence paid the flag at  
home, the greater respect it will com-  
mand abroad.

I can give you a better buggy  
for your money than any body.

## SUED BY HIS DOCTOR.

"A doctor has sued me for \$12.50,  
which I claimed was excessive for a  
case of cholera morbus," says R.  
White, of Conchella, Cal. "At the  
trial he praised his medical skill and  
medicine. I asked him if it was not  
Chamberlain's Colic, Cholera and  
Diarrhoea Remedy he used, as I had  
good reason to believe it was, and he  
would not say under oath that it was  
not." No doctor could use a better  
remedy than this in a case of cholera  
morbus, it never fails. Sold by all  
leading druggists.

## NO COMPETITION.

The uniform success of Chamber-  
lain's Colic, Cholera and Diarrhoea  
Remedy in the relief and cure of  
bowel complaints both in children and  
adults has brought it into almost  
universal use, so that it is practically  
without a rival, and as everyone who  
has used it knows, is without an  
equal. For sale by all leading drug  
gists.

## FREIGHT CAR OFF TRACK.

The C. & A. freight office platform  
was badly damaged Tuesday noon by  
a box car leaving the track. The lo-  
cal freight had backed down the sid-  
ing along side the freight office, and  
unbeknown to the engineer the rear  
car had run off the end of the switch.  
When the engine again started it car-  
ried the car down the center of the  
track, struck the corner of the C. P.  
& St. L. depot, tearing off a few  
boards, and continuing, tore all the  
supports from under the C. & A. plat-  
form. Several persons were near by  
at the time, but were unable to at-  
tract the engineer's attention. He  
soon found that something was wrong  
and stopped just in time to prevent  
greater damage. The door and one  
of the brakes of the car were broken  
off.

## BICYCLE ACCIDENT.

Dr. Robert Buckthorpe will con-  
clude that the passage of scripture,  
which says a horse is a vain thing for  
safety, might well read: A wheel is a  
vain thing for safety also. Yesterday  
he was riding his bike, when the for-  
ward wheel broke and participated  
him to the ground, hurting him con-  
siderably, though probably not  
enough to incapacitate him from  
business. After being laid up some  
three months by an accident with  
a bicycle he will conclude, with the  
gentlemen from Erin, that the next  
time he rode the infernal thing he'd  
walk.

## ELECTRIC ARCHES

**Workmen Were Busy Tuesday Isolating Steel Structures—Brilliant Illumination of the Square now Possible When Desired.**

Workmen were busy Tuesday erecting the steel arches that are to be put up at the intersections of East and West State and North and South Main streets with the square. Some time ago the city council passed an ordinance for the erection of four steel arches at a cost of \$1,040, and the Illinois Bridge company was awarded the contract for the construction and erection.

The arches are made of structural steel and will weigh 1,800 pounds each. They are twenty-eight feet high in the center and have a width of forty feet at the base. At the center they are one foot square, and two feet square at the base. The legs are to be set in three feet of cement. Forty electric light globes are to be arranged in two rows along the under side of the arches. The wiring is to be placed in permanent iron conduits to prevent any danger and to insure perfect service. The lights will be turned on probably every Saturday night and on all public occasions. These improvements will no doubt add materially to the attractiveness of the square and business section of the city.

## BACK FROM THE PHILLIPINES

JOHN L. MYERS TELLS OF HIS EXPERIENCE

### Enlisted Three Years Ago in St. Louis—Spent Greater Part of Period in in Batangas Province—Queer Habits and Customs of Natives.

John L. Myers returned to his home in this city last week, after a three years' service in the United States army, part of the time having been spent in the Philippine islands. He enlisted May 20, 1901, in the Twelfth United States cavalry, at the St. Louis recruiting office. Going to San Antonio, Texas, he was assigned to the Twelfth cavalry band, consisting of thirty-one pieces, and one of the best bands in the field. In the camp at San Antonio were eight troops of cavalry, two field batteries and the second corps of field artillery which made the gallant fight at San Juan hill. After remaining in this camp for nearly a year, the Twelfth was ordered to the Mexican border and stationed at Fort Clark. They were ordered to the Philippine islands July 20, and boarding the transport Sheridan at San Francisco, they arrived in Manila bay on Aug. 9, 1903. The transport had on board this trip the third squadron, Twelfth cavalry and the new Philippine army band in charge of Colonel Kerr.

After landing at Manila they were immediately transferred to Batangas, one of the most turbulent points in the islands. The Egerotas tribe gave the army the most trouble, as they were a very belligerent set. They were known as dog eaters and were very fond of this animal. There was not a dog in all their territory and when one strayed amongst them a great feast was immediately prepared. Another great event with the tribe was at the time of the migration of great swarms of grasshoppers that occasionally crossed the island. When a swarm of these pests came through their country they would stretch long nets in front of the swarms, catching them by the bushes, and putting them in sacks, made arrangements for a big feast, at which the legs of their captives was the piece de resistance. The Egerotas are the most cannibalistic tribe in the islands. In preparing the dog meat, or the carcass of any animal, for eating purposes, they simply skin it and let it dry in the sun for about twenty-four hours. Nothing will putrefy, as the high temperature for the most part during the day is 130 degrees in the sun.

No work of any kind is attempted between the hours of 10:30 a. m. and 3 p. m., as the intense heat is almost unbearable.

The raising of rice and tobacco is the chief livelihood of this people, and it is possible for them to raise as many as four crops of rice in a season. Everybody smokes, men, women and children, and the cigarette is most generally used among them. They manufacture very fine cigars, however, the cheapest costing a cent a piece; yet this grade would have to sell in the United States for 25 cents a piece, because of the heavy duty, which is \$5.40 per hundred.

The dwellings of these people are entirely made of bamboo grass and are known as the nipa shacks. They have no stores, but places they call "canteens," where produce is sold. They have their native drink, which is known as "Veneo," a paralyzing intoxicant. This drink is made of rice, hops and coconut oil and tastes very much like benzoin.

The United States troops were quartered in large board buildings made from lumber sent from this country.

On the return trip to the United States departure from Batangas was made April 4, 1904, going first to Manila and then to Marvellers, the quarantine station. Here the most strict rules regarding quarantine are enforced. Everything is sterilized, including clothing and equipment of all kinds; even the vessel is thoroughly flooded with scalding water. They left Manila on the homeward bound trip April 15, making the first stop at Nagasaki, Japan. Here is to be found one of the most beautiful harbors in the world, and as the most striking evidences of the war times was the great number of cannon stationed at all the high points about the harbor. The transport Sherman remained in this harbor for three days. While here they were privileged in seeing the Japanese women loading coal on transports. About 800 or 1,000 women form in line and pass the baskets of coal from transport to vessel. Each basket holds about one-half a bushel and the rapidity with which this work is done by the Japanese women gives this port the record of being the second fastest coaling station in the Pacific ocean. The transport left Nagasaki harbor on April 20, making the next stop at Honolulu, May 8, and the next stop in San Francisco harbor on May 17. Eight hundred and forty-two soldiers returned on this transport and they brought with them eighty prisoners, who were taken to Alcatraz, the prison island of the United States army. From there they went to Angel island, where the mustering out was done on May 28. Mr. Myers enjoyed good health while away and returns none the worse physically and greatly enriched mentally for his experience in the Philippine islands.

In the evening another Children's day service was conducted at the Christian church. Guy Zorby, the superintendent, had charge. Owing to the fact that the pastor, Elder Vandervoort, was called by telegram Sunday noon to the home of a brother, whose wife had just died, Rev. J. L. McKay assisted in this service. In both instances the churches were more than filled and the children conducted their parts in a very creditable manner. Some excellent music, both vocal and instrumental, was heard by those present at each service. We would be glad to give both programs, but space forbids.

**THE VITAL QUESTION.**

Most Names by Which Diseases Are Known Are Merely Technical Terms to Distinguish Slight Differences.

Chronic maladies are due to two conditions: First, to poor blood and disordered circulation; second, to a lack of nervous force and unequal distribution of it. In other words, we may look to the blood and nerves for most of the lingering ills that weaken, plague or wreck human kind. This explains why Dr. Kuehler's Blood and Nerve Food cures so many diseases that bear distinctive names. It puts the blood and nerves right, and through them the whole system comes right. This concentrated Food is a blood builder, which so improves the vital fluid that it thoroughly nourishes every part of the body. It is also a powerful stimulant that gives an abundant store of energy to the nerve centers, which is distributed to every part, according to its needs, thus insuring active and regular function. With both structure and function right, you have good health. The genuine is made only by The Dr. Chase Co., Philadelphia, Pa. Price 50 cents, five boxes, enough to give it a fair trial, \$2.00. Book free. Weigh yourself before taking it.

MATHENY &amp; LLOYD.

(By Associated Press.)

Chicago, June 15.—Wheat—Perfect harvest weather southwest and weakness in foreign markets caused the market to open lower, July being down 1/4¢ at 3.80 1/2¢.

The fact that the first car load of new wheat had arrived at St. Louis and graded No. 2 red brought out a number of selling orders, the market continued heavy throughout the day, about the only demand being from shorts. A small decrease in the world's visible supply was a late bear factor. Prices were further weakened by private advices from Paris estimating a 12 1/2 per cent increase in the French crop over last year. July closed 1/4¢ lower, September down 3/4¢. Liverpool 1/2¢ lower to 1d higher. At the seaboard eight boat loads were accepted. Corn—Favorable weather and large increase in private and public stocks had a bearish effect. There was lack of adequate shipping demand, thus insuring all further accumulation of stocks. Weakness also came from falling down prices. The market had a downward tendency the entire session. It closed showed declines of 3/4¢. Liverpool unchanged to 1d lower. On the coast twelve boat loads were taken.

Oats—Oats yielded only a little despite the weakness in other grains. There was some profit-taking by small holders, but offerings were readily absorbed. Small receipts and decrease in the visible supply were supporting influences. July closed 1/4¢ lower.

FINANCIAL MARKET.

New York, June 15.—The stock market reopened again to day into an aggravated condition of apathy and indifference. The day was without feature, except for a rally at the close. Yesterday's reaction effectively blighted the hopes of revival of speculation, which had been gradually aroused by last week's slow and unimportant movement of prices. It became quite as manifest to day, however, that traders were to reap a little advantage from the price movement in the other direction, as selling spent its force. The consequence was an insignificant drift of prices with no defined current in any direction. Each abortive movement of prices confirms the conviction that a lengthened period of speculative conservatism is to be faced and adds to the indisposition to undertake operations of any magnitude in the market. The market rallied quite vigorously late in the day. The rally was helped by rumors circulated in the board room that a settlement had been arrived at out of court of the Northern Securities dispute. Closing quotations:

## HOME MARKETS.

There is nothing of special importance, except the improved price of cattle. Of the Chicago livestock market, Oliver S. Green, with Shannon, Bros. &amp; Co., Union Stock Yards, Chicago, reports for Monday, June 13, as follows:

Cattle—Receipts, 22,000, when 25,000 to 28,000 were looked for, as the market had shown so much advance during the last two or three weeks. All fat cattle were wanted at an advance of 5 to 10¢. Some show a little more, as the top sale was \$6.65. The grassy, half fat stuff sold no higher and dealers should want good margins on such cattle. The spread will grow wider between fat, corn fed cattle and green stuff. Butcher stock, if fat, sold stronger slower. Stockers and feeders are getting lower, but good feeders hold up fairly well.

Hogs—Receipts, 34,000. The market was 5 to 10¢ higher, top being \$5.07 1/2 for two lots. We sold 76 averaging 292, at this price.

Sheep—Receipts, 20,000. Fat and heavy lots sold steady.

Jacksonville, Ill., Aug. 24, 1901.—For two years I have suffered from sweet diabetes and have spent hundreds of dollars with various doctors, with but little benefit. I was recommended to try a bottle of Texas Wonder, Hall's Great Discovery, and will cheerfully testify to the public that it did me more good than all things else put together and am altogether another man. I have persuaded many of my friends to try it.

## WOMAN AND FASHION

Little Girl's Frock.

It is quite important that the little schoolgirl be just as correctly fitted out with her frocks as her big sister, although her frocks are fashioned upon lines of extreme simplicity. Of course the smart touches which ornament the adult styles are reproduced in the smaller ones, and the little girl has the exaggerated shoulder line and the same quaint features in her frocks, although they are peculiarly her own. In this model both front and back are laid in rather broad plaits, which are

A good idea is to make the collar of white and trim with bias bands of material like the frock. The style is one that is suitable for any kind of material—silk, lightweight woolen or cotton. These days we have more to do with wash materials, and a pretty idea is to make the frock of dotted or figured plique or galatin, making the collar of white and trimming with bands, or making of material and trimming with white bands. A novel trimming for collars and one that should be more used, if mothers only knew of it, many advantages, is the Hattenberg buttons. These may be put on in rows, varying the size of the button, or in dories or perhaps geometrical design, and the effect is charming.

Material required, for medium size, five and five-eighths yards, twenty-seven inches wide.

Neck Fittings.

With cloth gowns of the most elegant nature the little turnover collar, which seems a modest detail, is still worn. Many materials shape the narrow band, which may take as many forms, and if it is white it frequently shows embroidery in the gown color. For costumes of silk and dressier textures—chiffon, net, mousseline—the high stocks are sometimes finished with a piping of satin, velvet or puffed in a contrasting color. A twist of white tulle in turn tops this, and rare is the elegantly dressed throat that does not show some bit of this becoming web.

TEN YEARS IN BED.

R. A. Gray, J. P., Oakville, Ind., writes: "For ten years I was confined to my bed with disease of my kidneys. It was so severe that I could not move part of the time. I consulted the very best medical skill available, but could get no relief until Foley's Kidney Cure was recommended to me. It has been a Godsend to me." Sold by J. A. Obermeyer, City Drug Store.

### KILLED BY TRAIN

Dr. Herbert Ginder Meets Death In Missouri—Body Brought Here Tuesday Evening—Burial Will Be at Arcadia This Morning at 11 O'clock.

Dr. Herbert Ginder, formerly of this county, was killed Sunday at Hann, Mo., where he was struck by a train. Mr. Ginder and several companions had gone out for a day's recreation and being fatigued, he sat down on the railroad track to rest. He had been up with a patient the night before and was probably overcome with sleep, from which an approaching train failed to arouse him. He was thrown from the track and instantly killed.

Dr. Ginder was a son of James Ginder, of Arcadia neighborhood. He attended Illinois college in this city, after which he took a course in Barnes Medical college of St. Louis, graduating about three years ago; since which time he has practiced medicine in Missouri. He was 27 years of age.

A telegram Sunday notified Mr. Ginder of the death of his son, and he left Monday morning to take charge of the remains, which were brought to this city Tuesday evening. Funeral services will be held this morning at 11 o'clock at the new church in Arcadia. Interment will be in Arcadia cemetery.

Make no mistake, buy your buggies and harness of Broadwell.

### DELIGHTFUL CELEBRATION

Members of Rev. James Caldwell Chapter D. A. R. Observe Flag Day as Guests of Mrs. Henry Brakefield of Griggsville.

The Rev. James Caldwell chapter, D. A. R., of this city, were delightfully entertained Tuesday in honor of Flag day at the home of Mrs. Brakefield in Griggsville. Mrs. H. C. Brakefield, Miss Ethel Brakefield and Miss Florence Harvey, members of the chapter who reside in Griggsville, being the hostesses.

The local members to the number of thirty-five went to Griggsville Tuesday afternoon in a special coach on the 1:13 train. They were met at the station in Griggsville and taken in carriages to the elegant Brakefield home, where everything was done for their comfort and enjoyment. No formal program was carried out, and the afternoon was spent socially with games and amusements of a varied nature.

The beautiful lawn surrounding the residence was an ideal place for such a function and its natural loveliness was much enhanced by a lavish display of flags. The national emblem was everywhere in evidence, hung, draped and grouped in artistic designs, very appropriate to the spirit of the day.

In the evening a beautiful supper was spread on the lawn and was served in a faultless manner by young ladies of the city. All the appointments were perfect in their details, and nothing which might conduce to the pleasure and comfort of the guests was overlooked.

At the close of the afternoon's pleasures the visiting ladies were each presented with a small silk flag as a souvenir of the occasion.

The ladies who so pleasantly assisted the hostesses in receiving were Mesdames Cree, P. Stone, W. Stone, Seede, Simmons, Hatch, Wilson, Appelmann, Stead, Kenney, Sharpe, Shoemaker, Hoyt, Hatch and Petrie.

The young ladies who assisted in entertaining and serving were: Misses Stella Hatch, Clara Hoyt, Mary Torrens, Elsie Cree, Mamie Kenney, Helen Cree, Louise Wilson, Gertrude Thatcher and Ann Ludlow.

The ladies were delighted with their entertainment and unanimously voted this their most successful and pleasant flag day. Before leaving for the train they gave three rousing cheers for their hostesses and for Griggsville. They returned to this city on the 8:54 train.

#### CHRISTIAN CHURCH SOCIAL.

A largely attended entertainment was given at the Christian church last evening under auspices of the C. W. B. M. The audience completely filled the auditorium and fully enjoyed the following literary and musical program:

Piano solo—Miss Martha Simpson. Recitation—Miss Mabel Smith. Song, "Mother is My Sweetheart"—Miss Elizabeth Bell.

Solo—Davis Martin. Chorus, "Come and Play House with Me"—Junior girls. Selection from "When Knighthood was in Flower"—Miss Pearl Purviance.

Solo—Miss Marie Finney. Recitation—Miss Marie Scott. Solo—O. L. Hill.

Instrumental duet—Misses Mabel Pelham and Inez McCullough.

A "Missionary table," with missionary literature and portraits of Christian missionaries in foreign fields, was in charge of the juniors.

After the program refreshments were served in the church parlors and a social hour was enjoyed.

The church had been beautifully prepared for the occasion with elaborate decorations with American flags and an abundance of flowers. The chairman of the various committees in charge of the arrangements were as follows: Program, Mrs. R. F. Thrapp; refreshments, Mrs. H. C. Watt; decorations, Mrs. E. N. Kitner.

#### OBITUARY.

John Evans was born at Montgomery, North Wales, Feb. 14, 1826, and died at Jacksonville, Ill., June 4, 1904, aged 78 years, 3 months and 21 days. July 15, 1852, he was married to Elizabeth Reece. In 1857 they came to Morgan county, Ill., where they have since resided. He united with the Church of Christ at Lynnville in 1896 and continued a faithful and consistent member of this congregation. His funeral took place from his church home on Monday, June 6, Elder J. W. Camp having charge of the services. Besides his relatives many friends gathered at the church to extend sympathy to the bereaved ones and to do honor to the memory of Brother Evans, who, with his wife, was held in high esteem by this community, where he had lived so long. He was an honorable citizen and a kind and sympathetic neighbor, often going beyond his strength to assist others. "His delight was in the law of the Lord."

We laid his body to rest in Rocky Branch cemetery. The abundance of beautiful flowers bespoke the esteem of his friends. May God's tender blessings attend the aged wife, so lonely now, and the son and grand-children.

The police board has arrived but a dead-end swampy twentieth century plan that puts the women in the shade.

### PRIZE MEDAL CONTEST

Held at Centenary Church Tuesday Under the Auspices of the County W. C. T. U.

The first of a proposed series of monthly contests in speaking for the silver medal offered by the Morgan county W. C. T. U., was held at Centenary church Tuesday evening before a fair-sized audience. There were eight contestants and they presented a beautiful sight as they sat in a semi-circle upon the platform. Most of the speakers were altogether inexperienced, but all did remarkably well and were greeted with generous applause.

Mrs. P. M. Coard, president of the W. C. T. U., presided in a capable manner and introduced the following numbers of the program in order:

March—Organ. Song, America—Audience. Prayer—Dr. R. O. Post. The Lord's Prayer—By the children. The Result of Treating—Miss Katie B. Wilson (Clarkson).

A Testimonial Story—Miss Marguerite Myrtle Mayer. Music, Angel Serenade—Albert M. Ewert.

Shadows—Miss Jeanette Mary Taylor. An Old Man's Story—Miss Ethel Ragan. Solo, Down in Your Licensed Saloon—Miss Cora Graham.

It Is Worth the Sacrifice—Miss Edith Marie Mayer. In the Cross—Miss Virginia Georgia McEvers.

Duet, Let Us Give Our Lives to Jesus—Misses Marsha Stott and Nina Obermeyer. A Father's Prayer—Miss Mamie Rose Hoffman.

The Factory Chimney—Miss Minnie Bertha Hoffman. While the Judges, Mrs. E. C. Lambert, Dr. R. O. Post and Prof. T. R. Hopkins, were preparing their markings Albert M. Ewert played most acceptably another organ selection.

Mrs. E. C. Lambert, with a few appropriate remarks, announced the decision as favoring the first speaker, Miss Katie B. Wilson (Clarkson). She stated that several of the speakers received markings very close together, there being a difference of only a fraction between the prize winner and the next highest.

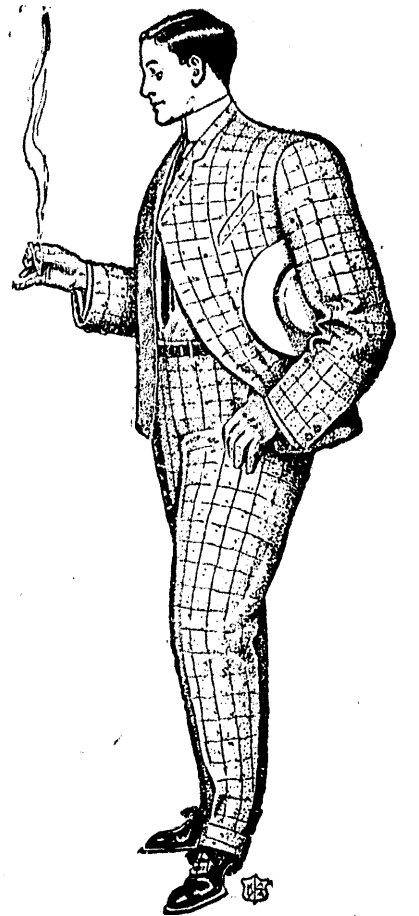

Mrs. Coard in behalf of the W. C. T. U., spoke a few words of appreciation for the interest manifested by the audience and of the earnestness of Mrs. Clarkson in preparing the children for the contest.

It is intended that one contest be held each month under the auspices of the county W. C. T. U.
